**PARK RULES (Approved June 12, 2007, edited February, 2016)**

Facilities are for the use of members, their families and guests. Guests are not expected to be continuous users of the facilities and are encouraged to become members. (Note that Rule 10(a) excludes guests from fishing.) The following rules must be observed:

**GATE POLICY:**

The front gate is an automated gate. You use a KEY FOB on the left side of the entrance drive. The gate will open and remain open for about 25 seconds and will close automatically. You may find the gate locked open from time to time. This is done when public events are scheduled. The rule to follow is, if you find the gate open, leave it open. When leaving the park, drive up to the gate slowly and it will sense your vehicle and open/close automatically.. Remember that you've paid for the privilege of using the park facilities – don't give your Key Fob to non-members.
